New investments (other than top ups) are no longer permitted into these types of specialist investments.

- Non-Mainstream Pooled Investments (NMPs) including Unregulated Collective Investment Schemes (including Overseas UCIS) and similar vehicles
- Shares in unquoted private companies (both UK and overseas)

If you wish to top up an existing specialist investment, please read our Specialist Investments (Non-Standard Investments) Guide, available from our website at www.jameshay.co.uk.

Complex Products

We will only allow you to invest in Complex Products if you have received advice from a regulated financial adviser in respect of the proposed investment.

Under regulations, there is no definition of Complex Products. However, the regulations define Non-Complex Products as follows:

- Units/shares in a UCITS qualifying Collective Investment Scheme;
- Shares, bonds and other forms of securitised debt admitted to trading on a trading venue;
- Structured deposits;
- Money market instruments; and
- Other products that meet certain criteria, including:
 - having frequent opportunities to trade at publicly available prices,
 - do not involve potential liability that exceeds the original investment,
 - do not include exit charges that have the effect of making the investment illiquid, and
 - where adequate comprehensive information on the investment is publicly available and likely to be readily understood by the average retail client.

Complex Products are therefore anything that is outside of this definition of Non-Complex products. Broadly speaking, Complex Products are investments involving derivatives or where the opportunity to sell is infrequent.

If you are investing without having received financial advice and are unsure if your proposed investment is a Complex Product, please ask the investment provider.
