TRADES PLACED WITHOUT FINANCIAL ADVICE

Target market

Before deciding to switch into a fund, you should consider the fund manager's target market for your chosen fund and whether your requirements are in accordance with this. This can be obtained through our website www.jameshay.co.uk, through our secure online service James Hay Online or by contacting the fund manager directly. James Hay will not assess whether you meet the fund manager's target market and therefore whether the fund is appropriate for your needs - you need to make this assessment yourself.

Aggregated costs and charges

If you are switching into a fund which is a UCITS fund, and so the fund manager produces either a Key Investor Information Document (KIID) or a Key Information Document (KID), then before switching you also need to have been provided with the aggregated costs and charges of making the switch. This includes the fund manager's charges and also James Hay's charges for making the switch.

To do this, you will need to phone us on 03455 212 414 and tell us which funds you intend to switch into, and we will produce the costs and charges disclosure document for you. This will provide you with a reference number, which you need to insert on the declaration section of this form.

Please note that if you do not do this before instructing us to switch, this will delay your investment, as we will have to contact you to do this as it is a regulatory requirement.

TRADES PLACED WITH FINANCIAL ADVICE

Target market

As part of the process of providing advice to you, your financial adviser will consider the fund manager's target market for each fund and whether your requirements meet this when making their recommendations to you. James Hay will not make any assessment of whether you meet the target market for a fund and therefore whether the switch to a fund that is appropriate for your needs.

Aggregated costs and charges

As the end distributor of the fund you are switching into, your financial adviser will need to provide you with the aggregated costs and charges disclosure prior to switching. This disclosure will need to include their own adviser charges, James Hay's charges for making the switch (available from the product's Charges Schedule) and the fund manager's charges. Your financial adviser will be asked, as part of the declaration they need to sign to instruct the switch, to confirm that they have provided this to you. To assist your financial adviser in doing this, they can use our online aggregated costs and charges calculator.
